OLIVIA

Olivia Marie Wright was born on April 29, 2005 to Richard and Joni (Jeffries) Wright of Leavenworth, Indiana. She is the sister of Tom and Sam Wright and Allie Laswell. Olivia was born with Cerebral Palsy, Hydrocephalus, and a seizure disorder. She is in need of Hyperbaric Oxygen Treatments. The cost of these treatments is \$5,000.00 and her insurance does not cover this procedure. The family has to travel to Winter Park, Florida for these treatments. She goes one time a year for a month. She receives two treatments a day inside the chamber for one and a half hours at a time, five days a week.

In 2007, Olivia made her first trip to Winter Park for treatments. Before the treatments she was only able to walk with the help of a special walker due to the muscles in her legs being too tight and her speech was very limited. After completing her first round of treatments she made great progress. She was able to begin walking on her own without the walker and now is a very active 12 year old, who loves to jump on the trampoline and play t-ball with her friends. Her speech has also greatly improved but still needs further improvements. Every year that she is able to make the trip to Winter Park for the treatments, she shows improvement. This year will be her 10th year of treatments as long as we are able to raise enough money for her to make the trip.

We are asking everyone to say a special prayer for Olivia. We pray that God will give her the strength that she needs to go through her daily struggles and that she will continue to be a fighter! We also ask for strength and patience for her family and her therapists! We appreciate all of your love and support! God Bless you all!
